ii) The winner will be determined by adding all points accumulated by team during the event. The team with the most points is deemed the winner.

iii) As many 30" and above fish you catch during the tournaments will count for the team's overall points for the tournament. *****exception will be for our Chautauqua tournament we will only except the team's largest 3 fish only*****

iv) In the case of a tie for first place, the tie breaker will be the biggest fish by length. If still there is a tie, then the angler's next longest fish will be taken into consideration in the same manner as described above. If there is no second fish for either party the angler who catches the fish earlier in the day will win. If after all fish are accounted for and there is still a tie, then the end result is a tie and the anglers will split the combined prizes for the affected positions.

v) Ties for second place will be determined in the same fashion as above.

vi) These rules will also apply to the big fish pot.

vii) A team can win multiple spots such as 1st, 2nd, 3rd, and big fish if there is only one fish caught for the tournament. If there are 2 fish caught by 2 different teams the 3rd place will be split between those 2 teams.

viii) If no fish are caught during the tournament we will give everyone raffle tickets for a chance to win each spot.

e) Only released fish will qualify for tournament results

f) When a muskie is caught, please:

i) Keep the fish in the water while removing the hook.

ii) If there are no judge boats used to verify fish measurement then:

(1) A digital or Polaroid picture accurately demonstrating the fish's length must be taken in order for the fish to count and

(2) Another contestant in the boat or in another boat must verify the catch.

If possible, measure the fish in the water while in the net (for the health and safety of the fish).

Coordinate personal photos with measurement photos as much as possible. If fish is removed from the water for measurement and personal photo purposes please hold the fish out of the water no longer than you can hold your breath underwater.

- (3) *Must have a picture of the fish on the bump board with the specific button or code given to angler on the day of the tournament*
 - iii) If judge boats are used:
 - (1) Leave the fish in the water while in the net while waiting for the judge boat to arrive.

 - g) Fish Release forms will be provided to each contestant
 - h) In case a contestant's position is challenged, a written protest must be provided to the Tournament Committee immediately. Individuals concerned may be required to take a truth verification examination.
